

TREMGLAZE® S1400

TremGlaze® S1400 is a high-performance, single-component, neutral-cure, medium modulus silicone sealant for install applications.

FEATURES AND BENEFITS

- Medium modulus with capability to handle up to 40% expansion and contraction, making it ideal for use in dynamically moving joints.
- Extremely low VOCs and can be used in any VOC regulated area across the US and Canada.
- Superior strength characteristics
- Ideally suited for the most demanding window and door installations
- +/- 40% movement

INSTALLATION APPLICATIONS

- General purpose high-performance sealant for dynamic moving joints
- Glazing and re-glazing glass
- New construction and replacement window installation
- Weather-barrier joints around fenestration and wall transitions
- Field joinery, mull caps sealing and field reglazing

TREMGLAZE®
