

NOTE: Sand Slurry protection and mud slab recommended for heavily reinforced slabs that are to be placed on damp or unstable earth.

NOTE: Paraseal products require a min of 24 PSF of compaction/confinement in order to function as designed.

NOTE: Not recommended for use in submerged conditions.

NOTE: When pouring concrete over the Paraseal LG pour either directly on top of the seam or towards the closed edge of the seam so as not to lodge concrete between the lapped seam. Lap seams 4" min. and secure with nails at 6" on center only at seams.

NOTE: Refer to detail B-BSOG-03-LG20
